

NOTIFICATION OF PACKAGING CHANGE

Sorbsan Ribbon & Packing

Dear Customer,

Due to the constraints imposed by the changes in Medical Device Regulations it is no longer practical to pack Sorbsan probes with Sorbsan dressings in the same sterile pack. As stock of Sorbsan Ribbon & Packing produced under the old regulations (the Medical Device Directive 93/42/EEC) is used up, this will be replaced by stock produced under the new Medical Device Regulations (EU) 2017/745:2017. This means that the probes and dressings need to be produced and packed as separate products.

Feedback has identified that customers appreciate receiving the probes with the Sorbsan dressings. To facilitate this, and deliver the dressings to expectation, you will receive a box of 5 probes with every box of 5 Sorbsan ribbon or packing ordered, these are packed together in a plastic bag for convenience. In this way we will be able to meet customer expectations and the description contained within the UK Drug Tariff.

Sorbsan Probes are also available separately from your wholesaler, please see below images and table for clarification on the changes in the configuration.

Product Code	Product	Size	Pip Code	Qty
1411	Sorbsan Packing (with probe)	30cm/2g	034-8979	5+5
1412	Sorbsan Ribbon (with probe)	40cm/1g	003-5212	5+5
1425	Sorbsan Wound Probe	125mm	019-0579	5
